What's the

Right Way?

There is no Right Way!

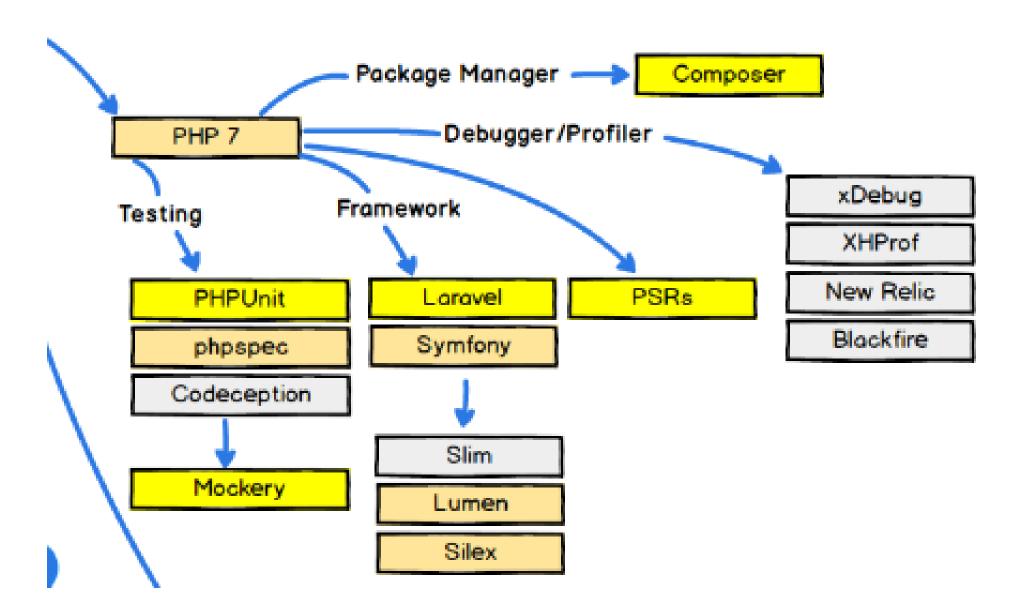

But, there is a wrong way!

Business Way

- PHP fundamentals (arrays, functions, best practices)
- **❖**OOP
- Composer Manager
- **❖** PSRs
- Design Patterns

Educational Way (ETEC way)

- Differences between front-end and back-end
- PHP basics (if, for, while...)
- PHP Arrays *
- Classes and functions organization
- Composer auto-load
- Data base connection
- Framework (Laravel)

Useful Links

https://br.code.org/learn

- talvez esse seja o melhor da lista sobre lógica. Você escolhe um desafio (normalmente um jogo) e começa a desenvolver usando blocos. Excelente para treinar lógica

https://www.codecademy.com/pt-BR/learn/all -

traz uma série de cursos de forma intuitiva pra seguir. Sugiro fazer o de php, o de html e css e os de sql.

https://pt.khanacademy.org/hourofcode

- Não fala especificamente de PHP, mas tem excelentes exercícios de lógica usando JavaScript

Useful Links

https://www.freecodecamp.com/ -

Parecido com o codecademy, mas é em inglês

https://www.codewars.com/ -

Esse é o meu predileto, mas não é pra quem quer aprender lógica apenas. Você escolhe quais linguagens quer treinar, escolhe o seu nível e recebe uma série de desafios para cumprir. Vale a pena conferir!
